

SAMSUNG

Odyssey

Go Beyond with Odyssey

Odyssey has been a journey for Samsung, a massive undertaking that has culminated in their full entry into gaming monitors, bringing with them a host of incredible innovations and leading edge ideas.

Now it's time for gamers to go on their own journey, to Go Beyond an ordinary setup, to go with Samsung into a new age of immersion, performance and design.

Gamers want to see what's on the other side of the horizon, they want to see a new world, and they can do that if they:

Go Beyond with Odyssey.

49" Dual QHD

G95NA

Quantum Matrix Technology
Quantum Mini LED
Quantum HDR 2000 & HDR 10+
1000R curvature

240Hz refresh rate
1ms response time
Low Input Lag
G-Sync compatible

HDMI 2.1
Picture-by-Picture
Picture-in-Picture
Ergonomic design

World's 1st curved mini-LED monitor

Revolutionary Quantum Matrix Technology with Quantum Mini LEDs creates controlled brightness and perfect contrast for refined definition. Massively boosting local dimming zones to 2,048 enhances light control for finer pixel precision, while industry-leading black levels widen the contrast range.

Quantum HDR 2000 & HDR 10+

See every detail in all its glory. From gloomy shadows to sun-scorched scenes, colors leap to life with 2,000 nit peak brightness. With Quantum HDR 2000 certified by VDE , every light change is captured to uncover even the slyest foes.

G95NA

World class gaming performance

One misstep can be the difference between victory and defeat. With a 240hz refresh rate, 1ms response time, G-Sync compatible and low input lag, prepare to win.

1000R curved super ultra-wide screen

With 1000R curvature inspired by the human eye and a 32:9 screen ratio, Odyssey Neo delivers ultimate immersion and unrivaled eye comfort.

Infinity Core lighting with CoreSync

Surround yourself in every scene. Gaming escapes beyond the screen with CoreSync technology that matches your game's on-screen colors for world-blending immersion.

Odyssey G9

G95T

49" Dual QHD

G95T

Dual QHD
QLED technology
DisplayHDR 1000
HDR 10+

240Hz refresh rate
1ms response time
Low Input Lag
G-Sync compatible

1000R curvature
Picture-by-Picture
Picture-in-Picture
Ergonomic design

QLED technology

Superior picture execution. A new level of vibrant resolution is achieved by QLED's bright and realistic shades and hues. Enjoy awe-inspiring game scenes with accuracy in every last detail.

VESA HDR 1000 & HDR 10+

Even closer to reality. HDR1000 enhances darks and whites for more dimensional contrast. HDR10+ optimizes brightness and contrast, creating visuals that look out of this world and just like true life, all at the same time.

G95T

World's largest 1000R curvature

Vivid scenes wrap tightly around you. The 1000R 49-inch super ultra-wide display with unrivaled eye comfort fills your peripheral vision and plants you into the character's shoes.

A new dimension in visual design

The glossy white exterior meets Infinity Core Lighting Design. Five distinct core colors allow you to customize your Odyssey to match with the rest of your gaming setup.

Next-level gaming performance

With gaming performance, the slightest disadvantage can be the difference between winning and losing a match. With a 240Hz refresh rate, low input lag, lightning-fast 1ms response time, and G-Sync compatible with FreeSync Premium Pro support, you can be sure that Odyssey won't let you down on the battlefield.

Odyssey G7

CoreSync

144Hz refresh rate
1ms response time
Low Input Lag
G-Sync compatible

HDMI 2.1
Auto Source Switch+
Ultrawide Game View
Ergonomic design

G70A

4K Resolution with IPS panel

Uncover every detail with maximum clarity. Packing four times the pixel density of FHD, see games with clearer colors and greater depth. With a wide 178° viewing angle, scenes are lifelike from any viewpoint.

Core lighting design with CoreSync

Surround yourself in every scene. Gaming escapes beyond the screen with CoreSync technology that matches your game's on-screen colors for world-blending immersion.

Highest refresh rate among 4K gaming monitors

The 144Hz refresh rate, the highest among 4K gaming monitors, and 1ms response time eliminate lag and ghosting for the smoothest action in ultra-high-definition. With HDMI 2.1 powering up to 120Hz refresh rates in UHD, there are now more ways to play.

Key features

PICTURE QUALITY

Spark your senses

Discover the absolute best in every game. With Samsung Odyssey, each scene leaps to life with incredible colors and pinpoint accuracy. Its mesmerizing, curved screen delivers breakthrough immersion, surrounding your senses with electrifying depth.

Quantum Matrix Technology

**Perfect precision
with Quantum Mini LED**

An unrivaled visual experience. Revolutionary Quantum Matrix Technology with Quantum Mini LEDs creates controlled brightness and perfect contrast for refined definition. Local dimming zones were increased to 2,048 and combined with the highest 12-bit black levels to create unmatched picture quality.

Quantum HDR 2000

**Hidden details
shining bright**

See every detail in all its glory. From gloomy shadows to sun-scorched scenes, colors leap to life with 2,000 nit peak brightness and 125% sRGB gamut. Every light change is captured with a million to one contrast ratio to uncover the slyest foes.

UHD
3840 × 2160

High Resolution & High Quality Panel

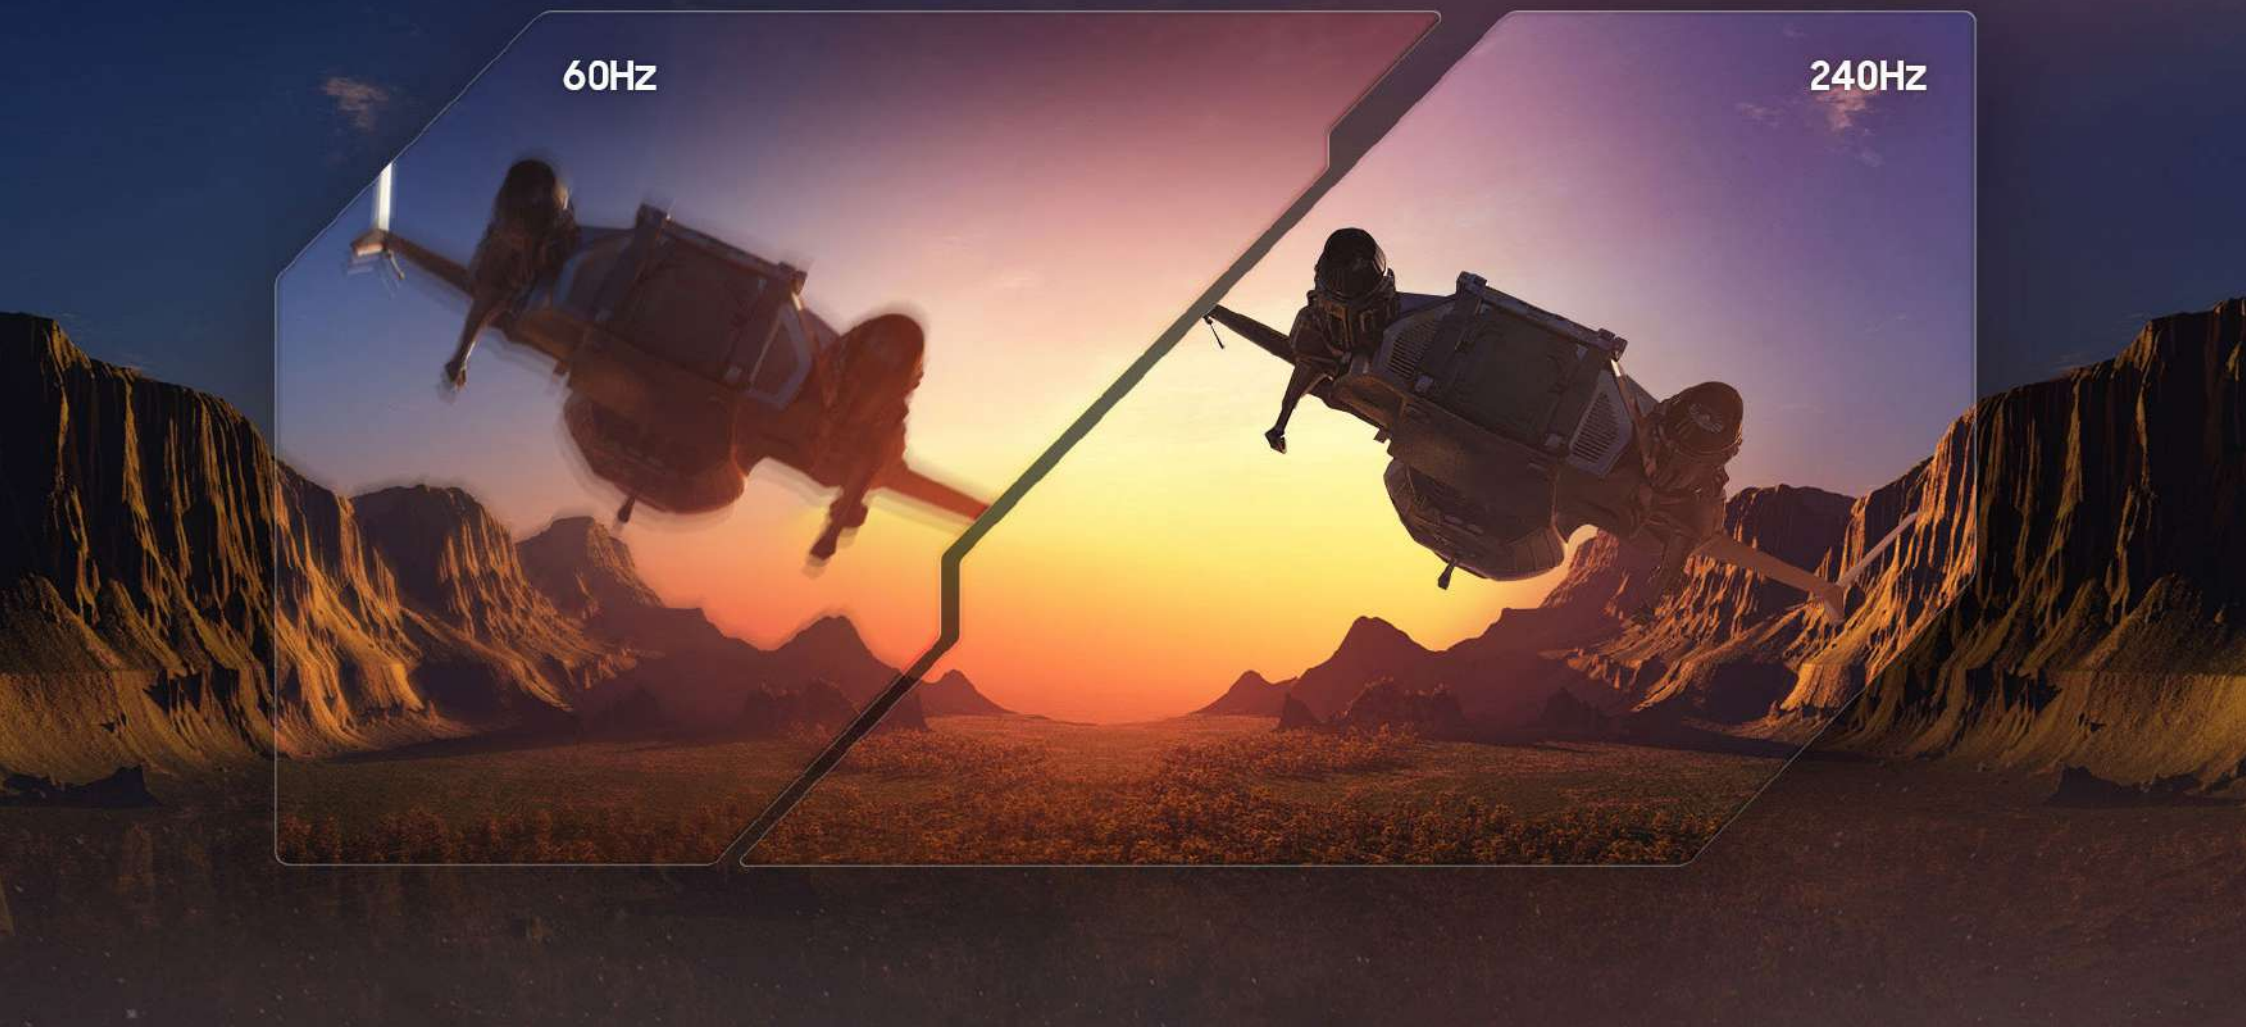

Hyper-real worlds on your screen

Uncover every detail with maximum clarity. Packing four times the pixel density of FHD, see games like never before. IPS panel delivers clear colors and a wide 178° viewing angle for clarity from any viewpoint. With more pixels and greater depth, games are closer to reality than ever before.

GAMING FEATURE

Battle the best

The slightest disadvantage can be the difference between winning and losing. Unleash on the competition with premium performance and lightning-fast response. Whether aiming for first or trying a new game, you won't be let down on the battlefield.

240Hz refresh rate & 1ms response time

Supreme speed in every playthrough

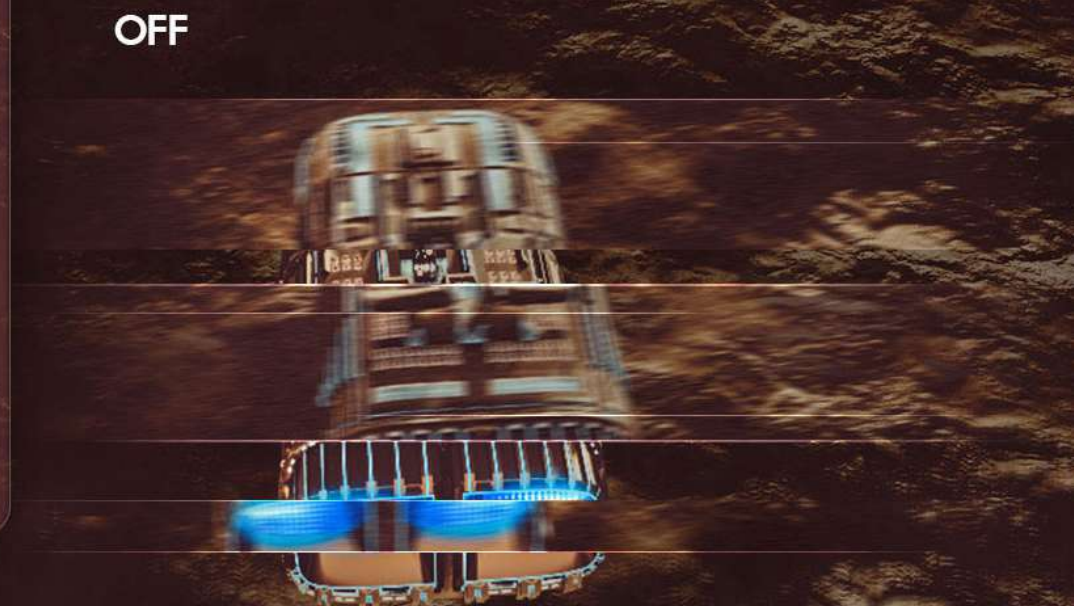

Supreme speed in every scene. Industry-leading 240Hz refresh rate eliminates lag for exhilarating gameplay and ultra-smooth action scene-by-scene. With 1ms response time and blur-free frames, players have a competitive edge with optimized technology – every playthrough.

Low Input Lag

Make every second count

Kick the difficulty up to max and still clear hordes of the fastest foes with an incredibly low input lag. It's so fast that every move feels like mind control with each button press and joystick flip executed instantly.

G-Sync compatible
& FreeSync Premium Pro

Uninterrupted game flow

Hyper action made seamless. Say goodbye to choppiness, screen-lag, and image tears with ultra-smooth G-Sync. Run the most complex games at full speed without disruption with AMD FreeSync Premium Pro, pulling you as close to the action as you can be.

DESIGN

A new dimension in design

Teleport to your favorite game universes with the ultrawide, curved DQHD screen, putting you at the center of the action. Shaped to match the human eye for maximum immersion and minimal strain, Odyssey brings cutting-edge design into a new dimension.

1000R Curvature

**World's best
1000R curvature**

Vivid scenes wrap tightly around you. The 1000R fills your view for maximum immersion, allowing you to fully immerse in every game. Matching the curvature of the human eye, Odyssey reduces potential eye strain by up to 87%, enabling marathon sessions when you need just one more turn.

Core lighting design with CoreSync

**Designed to light up
your world**

Surround yourself in every scene. With core lighting, add personality to your setup with multiple color modes that leap off the screen and into your reality. Gaming escapes beyond the screen with CoreSync technology that matches your game's on-screen colors for world-blending immersion.

Ergonomic design

**Your games
tailored to you**

Reach the height of winning. Swivel, tilt, and adjust your monitor until all enemies are in perfect view. Your display can be moved freely so you can find total comfort for each game.
